RE: Step 2 on the Quick Start Guide

Install each rear bracket as shown using the bolts, lock washers and flat washers provided, use the existing holes in the bedside. The brackets are left and right specific and the lock tab should go closest to the tailgate.

Warning! Be sure not to overtighten the mounting bolts. Doing so could shear off the bolt heads, creating a difficult procedure to remove the remaining thread.

RE: Step 3 on the Quick Start Guide

Install each front bracket as shown using the bolts, lock washers and flat washers provided, use the existing holes in the bedside. The spiral ring tab should be mounted towards the cab.

Remove the upper bolt located towards the center of the bedside. Install the ball stud, lock washer and flat washer. Warning: DO NOT overtighten ball stud.

Warning! Be sure not to overtighten the mounting bolts. Doing so could shear off the bolt heads, creating a difficult procedure to remove the remaining thread.
